

Restoration of the Tabernacle area at saint frances cabrini

Through a generous donation in memory of Anthony Emil Zappitelli, we will be restoring the water damaged area that surrounds the tabernacle at St. Frances Cabrini. This was damaged over the years from plants and flowers that were placed above it. This restoration will entail placing beautiful mosaic tiles on both sides of the tabernacle that will include gold crosses.

We are very grateful to the Zappitelli Family for making this donation specifically to restore and beautify the area around the tabernacle...the most sacred space in the church.

This project will be funded entirely through this donation.
